GERMAN RAID IN NORTH SEA TAKES VERY HEAVY TOLL

London, Dec. 17.—One British and five neutral merchantmen, a British destroyer and four mine sweepers have been sunk in the North Sea by German naval forces.

The losses were the result of an attack on a convoy bound from Scotland to Norway, Sir Eric Geddes, first lord of the admiralty, announced today. The total tonnage of the lost merchantmen was 8,000.

The German raid duplicates the successful enterprise of last October carried out by two German raiders which attacked a convoy in the North Sea. They sank nine neutral merchantmen and two of the escorting British destroyers. Five Norwegian three Swedish and one Danish vessel sunk without warning three other merchantmen escaping. The raiders were armed heavily and succeeded in evading the British watchers on the return as well as the outward trip.

READY NOW AT OLD PRICES

Fresh lots of Foley's Honey and Tar Compound are selling at before the war prices. This puts this well-known cough medicine, ready to use in homes at less than it costs to buy and mix the ingredients yourself, and all bother and muss is avoided. There is no better remedy for coughs, colds, croup or lagrippe.

THIS WAS NO JOKE.

J. E. Colver, 103 Labor Temple, Los Angeles, Cal., writes: "I have had about 56 years of experience with all sorts and kinds of cathartic remedies—some good and some a joke. When I got wise to Foley Cathartic Tablets for constipation I got in right. The best I ever used." Do not gripe; no unpleasant after effects.

Lowest cost per pound of real roughage

much each pound of roughage in this form is costing you, you must divide the price per ton by 1500—not by 2000.

BUCKEYE HULLS

LINTLESS

cost exactly what you pay for them. Every pound is all roughage—no useless lint. To really know the difference in cost between old style hulls and Buckeye Hulls you must know the cost per pound of real roughage.

Even though Buckeye Hulls do sell at a much lower price than old style hulls, you can't realize how much less they are costing you until you consider how much more real roughage a ton contains.

Other Advantages

Buckeye Hulls go farther. They allow better assimilation of other food. No trash or dust. Sacked—easy to handle. They mix well with other forage. Take half as much space in the barn.

Mr. Dan Wolf, Hammond Bldg. & Mfg. Co., Hammond, La., says: "I am feeding Buckeye Hulls to milch cows and find them a satisfactory filler when mixed with cottonseed meal and other concentrates. At the present price of feed stuff, Buckeye Hulls are the cheapest roughage on the market."

To secure the best results and to develop the ensilage odor, wet the hulls thoroughly twelve hours before feeding. It is easy to do this by wetting them down night and morning for the next feeding. If at any time this cannot be done, wet down at least thirty minutes. If you prefer to feed the hulls dry, use only half as much by bulk as of old style hulls.

Book of Mixed Feeds Free

Gives the right formula for every combination of feeds used in the South. Tells how much to feed for maintenance, for milk, for fattening, for work. Describes Buckeye Hulls and gives directions for using them properly. Send for your copy to the nearest mill.
